Chapter 1. Sum Up

How to Sum Up Numbers

Here you will find instructions about using the sum up feature of the JPS Calculator app.

To successfully sum up numbers, you must know what summing up is.

1. Enter the first number.
2. Press the plus (+) button.
3. Enter the second number.
4. Press the equal (=) button.

The result from the sum up function is displayed.

You want to sum up 2 and 3. The equation will look like: $2+3=5$. You enter 3. Press plus. Enter 2. Press equals.

The result 5 appears on the screen.

Chapter 2. Subtract

What is Subtract of Numbers?

Here you will learn what subtraction is.

To successfully perform the task of subtracting numbers, you must know what is subtraction. The term 'subtraction' represents a mathematical operation. Subtraction is a process, an action that you do perform using numbers. Subtraction allows you to find the difference of 2 numbers.

You use the minus (-) button to express the subtraction operation in the app.

In the subtraction process, you take a number and reduce it to a smaller number. That is, we take away one number from another.

How to Subtract Numbers

Here you will find instructions about using the subtraction feature of the JPS Calculator app.

To successfully subtract numbers, you must know what subtraction is.

1. Enter the first number.
2. Press the minus (-) button.
3. Enter the second number.
4. Press the equal (=) button.

The result from the subtraction function is displayed.

You want to subtract 2 from 3. The equation will look like: $3-2=1$. You enter 3. Press minus. Enter 2. Press equals.

The result 1 appears on the screen.
